STATEMENT FROM THE OKLAHOMA BOARD OF NURSING

The Central Technology Center Practical Nursing Program is approved by the Oklahoma Board of Nursing. Graduates of the state-approved program are eligible to apply to write the National Council Licensure Examination (NCLEX) for practical nurses. Applicant for Oklahoma licensure must meet all state and federal requirements to hold an Oklahoma license to practice nursing. In addition to completing a state-approved nursing education program that meets educational requirements and successfully passing the licensure examination, requirements include submission of an application for licensure, a criminal history records search, and evidence of citizenship or qualified alien status [59 O.S. §§567.5 z7 567.6]. To be granted a license, an applicant must have the legal right to be in the United States (United States Code Chapter 8, Section 1621). In addition, Oklahoma law only allows a license to be issued to U.S. citizens, U.S. nationals, and legal permanent resident aliens. Other qualified aliens may be issued a temporary license that is valid until the expiration of the visa status, or if there is no expiration date for one-year. Applicants who are qualified aliens must present to the Board office in person, valid documentary evidence of:

1. A valid, unexpired immigrant or nonimmigrant visa status for admission into the United States;
2. A pending or approved application for asylum in the United States;
3. Admission into the United States in refugee status;
4. A pending or approved application for temporary protected status in the United States;
5. Approved deferred action status; or
6. A pending application for adjustment of status to legal permanent resident status or conditional resident status.

The Board has the authority to deny a license, recognition, or certificate; issue a license, recognition, or certificate with conditions and/or an administrative penalty; or to issue and otherwise discipline a license, recognition or certificate to an individual with a history of criminal background, disciplinary action on any profession or occupational license or certification, or judicial declaration of mental incompetence [59 O.S. §567.8]. These cases are considered on an individual basis at the time application for licensure is made. Potential applicants to state-approved education program with a criminal history, may obtain a determination of eligibility for licensure or certification from the Oklahoma Board of Nursing for a fee. The determination of eligibility for licensure petition can be accessed at <http://nursing.ok.gov/initialdeterm.pdf> .

COVID VACCINATIONS

Central Tech does not require the COVID vaccination for admittance into any program. However, a federal government mandate, which is enforced by the Centers for Medicaid and Medicare Services (CMS), requires that all health care workers must be fully vaccinated or have a medical/religious exemption in place. Central Tech does not require that students be vaccinated and therefore, will not provide a vaccination exemption. As such, Practical Nursing (PN) students, who are not and do not wish to receive the COVID vaccination series, will be required to submit exemption requests to clinical facilities. If a clinical facility will not provide the student with a vaccination exemption for any reason the student will not be allowed to attend clinical at that facility. In addition, some clinical facilities require that all students who attend clinical in their facility must be vaccinated for COVID and will not accept exemptions from students. In either of the above situations, students may experience an extended amount of time to, or may not be able to, complete their clinical requirements, and therefore, they would not be able to successfully complete the Central Tech Practical Nursing Program.
